

Nick Joshua Montemayor

Freelance Automation Specialist | AI Workflow Engineer

Angeles City, Pampanga

nickjoshuamontemayor0121@gmail.com • +639949320841 • www.linkedin.com/in/nickjmont

Innovative Automation Specialist with a strong background in designing and implementing AI-driven workflows using no-code/low-code platforms. Proficient in integrating diverse data sources and applications to streamline business processes. Experienced in developing AI chatbots, Retrieval-Augmented Generation (RAG) systems, and AI agents, with a focus on enhancing operational efficiency and user engagement.

SKILLS

- Automation Tools: n8n, Make.com
 - Programming & Scripting: Python, Bash
 - Cloud & DevOps: AWS (EC2, ECS, RDS, S3), Jenkins, GitHub Actions, Terraform, Ansible
 - AI & Machine Learning: ChatGPT, AI chatbot development, RAG systems, AI agent creation
 - Data Integration: API development and integration, Google Sheets, Gmail
 - CRM Systems: Pipedrive
-

PROFESSIONAL EXPERIENCE

Freelance Automation Specialist

Dec 2023 - Present

- Workflow Automation: Designed and deployed automation workflows using n8n and Make.com, connecting tools like Gmail and Google Sheets to automate data processing tasks.
- AI Integration: Developed AI chatbots and RAG systems utilizing ChatGPT, enhancing customer interaction and information retrieval processes.
- AI Agent Development: Created AI agents, including appointment setters, to automate client scheduling and communication tasks.
- API Integration: Leveraged APIs to connect unsupported applications, ensuring seamless data flow across platforms.
- CRM Utilization: Employed Pipedrive for customer relationship management, optimizing sales pipelines and client tracking.

Qstrike Innovations Phils. OPC

Aug 2024 - Present

Associate Support Engineer / DevOps Engineer

- Maintain and monitor AWS infrastructure to ensure performance, reliability, and high availability.
 - Manage ECS instances, RDS databases, and S3 buckets; implement performance optimizations as needed.
 - Troubleshoot and resolve infrastructure issues; provide expert-level support to internal teams and end-users.
 - Integrate and manage CI/CD pipelines with Jenkins and GitHub Actions.
 - Automated workflows using Bash and Python, reducing command execution times by up to 90%.
 - Built and maintained infrastructure as code (IaC) with Terraform and Ansible.
 - Collaborate with developers and cross-functional teams to resolve infrastructure and application issues.
-

EDUCATION

Bachelor of Science in Information Technology

STI College-Angeles

College - Magna Cum Laude

CERTIFICATIONS

- Huawei Certified ICT Associate (HCIA) Cloud Computing Certification - Huawei
